Re: Proceeding 02-278

To Whom It May Concern:

This is to express my concern about your proposed implementation of a National No-Call Regulation as described in Proceeding 02-278.

I have been enrolled in Indiana's no-call facility since January, 2002 and the number of telemarketing calls that I receive has been reduced to almost zero. My understanding is that the national law would be much weaker and less comprehensive than our local Indiana law. Please don't enact something that will preclude we Indiana citizens from enjoying the peace and privacy that we have come to expect under our local no-call law.

Sincerely,

Edward Kent
